

Drip Creationz

How to scale your business to a
infinite level with PayCertify

Drip Creationz is a prime example of how the proprietary virtual credit cards offered by PayCertify can scale business to an infinite level. As a custom shoe company, they recreate big brand shoes with a fun, California style through paint, print, and embroidery.

Their biggest holdback on profit was the limit of shoes under each account owner - 100 pairs per month - thus limiting the number of shoes they were able to create each month.

By implementing PayCertify's virtual credit cards, Drip Creationz can now create an unlimited amount of cards to tie to an unlimited number of accounts.

**100 new cards x 100
accounts = 10.000 more
pairs of shoes per month**

Not only can they now infinitely increase their product, but they can receive up to **2% cashback on every card they issue**. The rebates earned on each card can be pushed back into buying more shoes at no cost.

Not only does the All-In-One Suite PayCertify offer these virtual cards and rebates, but vastly lowers operational costs by providing payment processing at a lower cost as well as partnerships with the best in business fraud control to protect every transaction.

PayCertify has the best solutions to help you make more profits through payments. Start now and scale faster at the click of a button:
