Fighting chargebacks for you

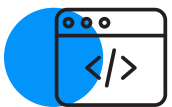

Chargebacks can compromise any promising eCommerce business. **A chargeback loses your business more than the cost of the product by adding numerous fees as well as hours of administrative efforts.** Even after all that fight, you still **only have a 17% chance of winning** the dispute. Outsourcing this chargeback nightmare to experts can give you the peace of mind that you deserve.

We've partnered with the best-in-business ChargeBacks911 to automate the entire process directly to the banking institutions.

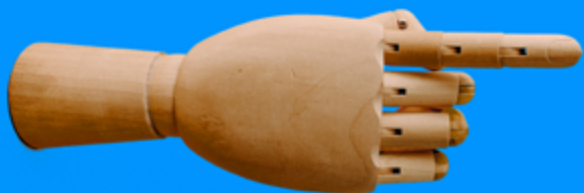

This guarantees a higher win ratio while providing a completely hands-off approach to the Chargeback Management process.

We will block the majority of chargebacks on the front end of a transaction before they ever hit your account.

We protect your business

If a chargeback is received, we will intercept and either auto-refund them based on parameters you set or put them in your dashboard for you to review. **Roughly 40% of consumers who file a dispute will file again within 60 days.** As chargebacks increase, your business cannot afford to miss out on this powerful, hands-free fraud prevention tool.

PayCertify has the best solutions to help you make more profits through payments. Start now and scale faster at the click of a button:
