

# ProfitPay

Peer2Peer

Mobile payment apps aren't new, but now with ProfitPay and its cashback abilities, you will have the ease of securely sending money to peers and friends in the US, Canada, and Europe. Within one platform, **not only do you have the original virtual credit card capabilities to automate paying your bills while earning up to 2% cashback**, but you are now able to **send and receive directly into the virtual wallet between peers.**

Sending money back and forth through the app is simple and allows you to move money with ease - and is easy on your wallet.

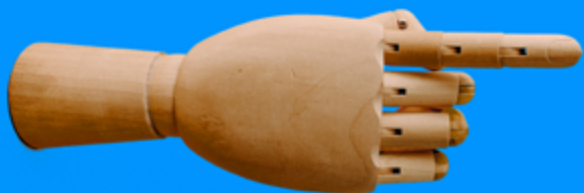

The fees that are so standard on other platforms are eliminated by using ProfitPay,

The protection and flexibility of the virtual card capacities are further enhanced by removing the risk of your bank account or debit cards becoming compromised.

## Make more money.

If you refer a friend and they download the app and load up their bills to generate cashback on their cards, **we pay you!** If you add your contact list and more than 20 friends download the app and create credentials, you **will earn additional cashback on every transaction.** Once your contacts accept, you can move money from person to person no matter where they are banking.

PayCertify has the best solutions to help you make more profits through payments. Start now and scale faster at the click of a button:
